

## LEVEL 1 ISOLATION GOWN

Water-resistant 100% polyester or  
65% polyester/35% cotton blend

Number of washes while maintaining  
water resistance: minimum of 25  
without reapplying fluid-resistant finish

Spec sheets available upon request

Washable, reusable, Level 1 isolation gowns available in one style and two fabrics. This gown meets the criteria established by the CDC for fabric gown construction, and conforms to Level 1 of AAMI PB70.

### KEY FEATURES

- One size: gown length: 47", underarm width: 30", shoulder + sleeve length: 31"
- Fabric options: 100% polyester or 65% polyester/35% cotton blend. Both materials are water resistant.
- Serged seams
- 100% cotton overlapping twill ties
- Latex-free elastic cuffs
- Expected number of washes: minimum of 25 without reapplying fluid-resistant finish

### WHY IT'S BETTER

- Machine wash 140°-150° and tumble dry; non-chlorine bleach may be used
- Reusable, sustainable option
- Durable construction with serged seams and reinforced ties
- Overlapping tie closure in back
- Snug elastic cuffs
