

Let's partner for success.

Sylvan Learning's Supplemental Education Programs can help your employees make the best of the new school year.

This year more than ever, our fellow educators all over the country face a daunting task: overcoming the longest and most profound disruption to student education we have witnessed in modern history. There are no easy answers but one thing is for sure - Sylvan wants to partner with employers, families and schools to support the educational recovery in every community we serve.

Sylvan has a national footprint but is locally owned and operated and that means we are **uniquely qualified to serve our Michigan families!** Our Michigan franchisees are small business owners, active members of their communities and employers of local certified teachers.

They take pride in serving children and in contributing to the steady improvement of our local Michigan economies.

For us, there is no greater goal than partnering with other small business owners to help their employees' children achieve success. If they achieve success, we know employees and businesses can get back to work and back to contributing to the recovery in Michigan.

We're right here with you!

HOW WE CAN HELP SBAM MEMBERS

At Sylvan Learning, we realize what the disruption to the school year will mean for businesses worldwide. Working parents are searching for solutions for how to manage a school year that will be different than any of us could have imagined.

We've reimaged what school support can look like for families. Here are a few ways we can help SBAM Member Employees:

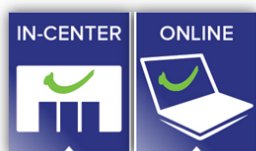

School Support In-Person at Our Centers

Get the first month for
1/2 price

Parents set a weekly/monthly schedule for safe and supervised support in a dedicated learning environment with no distractions to keep students focused and motivated to learn

- Coaches keep students on track with school assignments and online school sessions
