

Introducing our Interest Free Program.

Your Health Plan. Enhanced Even More.

HealthBridge is a first-of-its-kind benefit solution that enhances a company's health plan. With HealthBridge, employers can offer their health plan with a financial security benefit that gives members confidence to afford their out-of-pocket medical expenses. Members have guaranteed access (no credit checks) and even **more friendly repayment terms than ever before.**

No Interest. No Kidding.

We're always looking for ways to improve HealthBridge. Because when our benefit is better, life is better. That's why we're introducing the Interest Free Program. Available for enrollment Fall 2021.

HealthBridge Benefit Explained.

HealthBridge pays HealthBridge Network Providers directly for a Member's out-of-pocket medical expenses — copayments, coinsurance and deductibles for medical services covered by their health plan. Then, HealthBridge sends Members a monthly statement listing those expenses.

Members can pay their balance over time with no interest, and even get a 10% discount when paying any remaining statement balance.

With HealthBridge, your employees and their families have a financial safety net so that when they need care, they can get it with confidence.
