Data centers would get full tax exemption

Senate passed bill

As part of an effort to lead a \$5 billion data center investment for the Grand Rapids Senate on Thursday passed two bills on 21 to 15 votes to give data centers a full tax rate and use tax.

Earlier in the day, the Senate Michigan Competitiveness Committee reported on and SB 617 with language that would have relieved data centers of four of the use tax. The full exemption was restored on the Senate floor.

The package, now headed to the House, applies the exemption to data center equipment or manage data and similar functions. Segments of the business community are against the package as favoring one sector of the business community.

Senate Majority Leader Arlen Meekhof (R-West Olive) told reporters on Thursday the package through the House were ongoing.
