The bottom line is that, for every plan, TAG acts as the company's 401(k) support team, so the company doesn't have to act as a retirement expert. TAG acts as a buffer between the Plan Sponsor and the DOL and IRS, and works to keep each plan in compliance with all applicable laws. TAG's experts make the decisions and take responsibility for those decisions with respect to the services they provide, taking away one more thing that might keep Plan Sponsors awake at night. TAG does all of this at a price comparable to plans that offer fewer services.

EASY PAYROLL INTEGRATION

Transamerica tracks certain participant-initiated changes on an ongoing basis, then sends the data to the payroll company.

Participant contribution data is sent directly from payroll provider to Transamerica.

Transamerica posts file for review, sends alert to plan sponsor or payroll contact.

Plan sponsor may complete the submission by verifying and approving the data through our secure website, or may use Transamerica’s proprietary automated approval process.

Before adopting any plan, you should carefully consider all of the benefits, risks, and costs associated with a plan. Information regarding retirement plans is general and is not intended as legal or tax advice. Retirement plans are complex, and the federal and state laws or regulations on which they are based vary for each type of plan and are subject to change. In addition, some products, investment vehicles, and services may not be available or appropriate in all workplace retirement plans. Plan sponsors and plan administrators may wish to seek the advice of legal counsel or a tax professional to address their specific situations.

Pooled employer plans (PEPs) are a new type of multiple employer plan for which the Department of Labor (DOL) and IRS guidance is still pending in a number of areas. An employer participating in the plan retains certain fiduciary responsibilities, including responsibility for retaining and monitoring the Pooled Plan Provider (PPP), for determining the reasonableness of its fees, and for periodically reviewing the plan as a whole. Among other responsibilities, the PPP acts as the 3(16) plan fiduciary. Transamerica does not act as a 3(16) plan fiduciary.
