Get Started With A Proposal

Submit an inquiry form online at sbam.org/peo.

We'll connect you with a representative from Engage to schedule a discovery meeting so they can learn more about your company and review your needs.

If you have a licensed insurance agent you're currently working with, they can be included in reviewing the insurance plan options and can help you decide the best fit for you and your employees.

If you're opting for insurance coverage, the underwriting approval process will begin and premiums will be calculated.

Once you review and approve the proposal, a client service agreement will be presented for your signature. The final step is implementation of the services you've selected. If you have any questions along the way, contact SBAM. We're here to help!
