AARP Michigan

Experience. Opportunity.

A stronger Michigan workforce.

CONNECTING EMPLOYERS & JOB SEEKERS 50+

Experience for Hire

Valuable skills. Meaningful connections.

AARP Michigan has joined with the Michigan Works! Associations to help rethink hiring in Michigan by connecting employers with experienced, qualified job seekers age 50 and over who are seeking opportunities to put their valuable skills to work.

How it works

01

Share your needs

Employers identify openings. Job seekers share their skills and interests.

02

Find potential matches

Information is reviewed to identify potential employer and candidate matches.

03

Meet and connect

Pre-Matched candidates meet with employers through scheduled interviews at the event.

For employers

Expand your recruiting reach and meet experienced candidates whose skills may fit your business.

For job seekers 50+

Connect with employers, discuss opportunities, and show what your experience can bring.

Let's connect.

Future events begin late spring 2027
